

## **Postmodernism: The Evolution of Symbolic Interactionism and Critical Theory**

John Asimakopoulos<sup>1</sup>

Symbolic interactionism has not stalled with the works of major figures such as Goffman. Rather, there is a continuity from symbolic interactionism to post-structuralism / postmodern theory and sociological conflict theory. The paper shows that there has always been an overlap between micro and macro theory, often by intellectuals considered early founders of theoretical approaches at both levels. Furthermore, this evolution demonstrates the viability of symbolic interactionism as critical theory and its applicability for the analysis of inequality from its origins in interactions to the macro-structures that institutionalize stratification. ### **THE SYMBOLIC INSTITUTION OF SOCIETY**

George Herbert Mead and Charles Horton Cooley are founders of symbolic interactionism, one out of three major sociological perspectives focusing on microsociology and social psychology. Symbolic interactionism is derived from the American philosophy of pragmatism. The term itself was coined by Mead's student Herbert Blumer. Blumer argued people act toward things based on the meaning they ascribe to them (1986). These meanings are derived from social interaction and
